ABOUT US

Established in 2004, Newmark has become an industry leader of the home and glassware sector in the UK. Our name has become synonymous with both the number one plastic and glassware brands manufactured in Turkey. Hobby-Life is the go-to name when it comes to household and kitchen plasticware whilst Pasabahce is the most sought after glassware brand currently being imported into the UK.

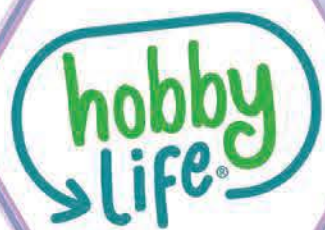

We have also grown our own Newmark brand by developing quality products in various categories across our range. Our continuous growth over two decades has been down to our principles of high standards in both customer service and providing the best quality products at the most competitive prices. We intend to continue this long into the future and invite you to join us on this journey.
